**EUROPRO**  
**SAFETY**

**SAFETY  
FIRST!**

A hand holding a red marker is shown in the lower right corner, underlining the text 'SAFETY FIRST!' with a thick red line. The text is written in a bold, red, sans-serif font. The background is white.

## **We are your reliable partner in the field.**

Safety at work is a fundamental tenet for any employer and employee alike. This is why at EUROPROSAFETY we take great care in providing you with the best products to ensure that safety at work is not only respected but implemented to the highest possible standard.

At EUROPROSAFETY safety at work is not only a standard but an ethos.

We are indeed your reliable partner in the field.

## **EUROPROSAFETY stands for Protection, Quality and Comfort.**

We are pioneers in the field of Personal Protective Equipment (PPE) bringing our customers end-to-end solutions and services required for the protection of their employees. We act as a one stop solution provider ranging from superior protective clothing to other PPE. We ensure that your employees are covered for all risks and of associated with occupational hazards.

Protective clothing and PPE have become a no compromise pre-requisite for all work environments. It is a vital part of the occupational safety and hazard protection that every worker needs and deserves. It reduces the chances of work place accidents by manifold and ensures your company a hassle free operation.

We, at EUROPROSAFETY, value the life of the hardworking people who are determined to bring value to your company and risk themselves in work places where accidents are very much a reality. We are more than glad to serve these heroes with none other than first class body protection and other PPE.

EUROPROSAFETY is a brand which has encompassing experience in the field of protective clothing and PPE specializing in Flame Retardant workwear. We are creators of wide range of protective Flame Retardant work clothes which are used by our valued customers all around Europe and Africa.

We have wide range of products and styles which are strong, tough and robust in face of the hazards giving both protection and comfort to the wearer. We carry extensive collection of garments which are available in diverse options of technical fabrics starting from NOMEX IIIA type aramid to FR Treated cotton. Each of our garments are carefully crafted to meet different needs of different industries.

We cover you for all the hazards of industries such as Oil & Gas, Welding and Metallurgy, Mining, Electrical Utilities, Defence and others. Not only our garments have performance fabrics but are also ergonomically designed for the ultimate comfort of the wearer.

## Our Strengths

### **TOTAL QUALITY MANAGEMENT**

An ISO 9001:2015, test of product quality and service.

### **OEKO-TEX CLASS II CERTIFIED GARMENTS**

Complete range of garments offer Next to Skin usage.

### **TRACEABILITY**

Complete traceability of all the material inputs ensures total confidence on our FR garments.

### **CERTIFICATION**

All our products are Tested and Certified to the highest possible standards.

- Wide, adjustable elasticated strap.
- Soft and comfortable face seal.
- Liquid splash protection.
- Lightweight and durable.
- Wraparound style offers wide angle of vision.

# HAND PROTECTION

## HP1001 ORANGE HAND GRIP

### PRODUCT FEATURES:

A tough, general purpose glove suitable for an extensive variety of applications. Crinkle latex coating in a range of colours gives excellent grip and durability. The seamless 10 gauge knitted polycotton liner is soft and comfortable for the wearer over prolonged periods of use. The Sanitized® hygiene function brings increased freshness, comfort and protection.

## HP1002 KNITTED NYLON GLOVES

### PRODUCT FEATURES:

Lightweight and low linting seamless knitted nylon liner with a tough nitrile coating for excellent dexterity and abrasion resistance. Close fitting, knit wrist style with built in Sanitized® hygiene function bringing increased freshness, comfort and protection to the wearer. Supple Nitrile palm coating gives excellent grip in dry applications and also provides excellent resistance to oils, fats and grease. Suitable for use with food.

## HP1003 HANDLERS GLOVES

### PRODUCT FEATURES:

Suitable for a range of handling tasks. The latex palm gives fantastic grip whilst the soft knitted fabric & uncoated back allows the hand to breathe, keeping you comfortable throughout the day. Conforms to EN 388 levels 2-1-2-1. Mixed fibre glove with latex palm coat, textured grip and ribbed knit wrist.

## HP1004 COTTON CHROME GLOVES

### PRODUCT FEATURES:

These simple Cotton Chrome Gloves offer a practical solution to your general handling needs. A split leather palm offers strength and durability whilst the cotton backing helps to keep your hands cool whilst you work. Cat I Minimal Risk. Chrome split leather palm, Cotton fabric back, Knit wrist, Wing or straight thumb and Azo free.

# HAND PROTECTION

## HP1005 GAUNTLET CHEMICAL

### PRODUCT FEATURES:

PVC coated gauntlet suitable for use with a range of chemicals and solvents. This tough hardwearing glove is ideal for use in both wet and dry situations. Soft cotton interlock lining offers improved comfort. Sanitized® hygiene function works to improve freshness, hygiene and odour repellence over extended periods of use. Fully REACH compliant and Phthalate free formulation. Available in a range of lengths .

## HP1006 NITRILE GLOVES

### PRODUCT FEATURES:

A heavy weight, high quality Nitrile coating on a jersey cotton lining with a canvas safety cuff for added wrist protection. The glove offers excellent resistance to cuts and abrasion with good resistance to oils and greases. The Sanitized® hygiene function brings increased freshness, comfort and protection over prolonged periods of use.

## HP1007 MECHANICS GLOVE

### PRODUCT FEATURES:

Versatile mechanics style glove available in three finger styles. Snug fitting with adjustable wrist enclosure and reinforced wear areas for improved service life. Suitable for general specialised handling in dry conditions. Thumb and first two digits part covered, remaining two digits fully enclosed.

## HP1008 VERSATILE MECHANICS

### PRODUCT FEATURES:

Versatile mechanics style glove available in three finger styles. Snug fitting with adjustable wrist enclosure and reinforced wear areas for improved service life. Suitable for general specialised handling in dry conditions. Thumb and first two digits part covered, remaining two digits fully enclosed.

# HAND PROTECTION

## HP1009 YARN GLOVES

### PRODUCT FEATURES:

Manufactured from our best selling X5 yarn - a highly specialised mixture of DuPont™ Kevlar®, stainless steel and other high performance fibres - provides outstanding cut resistance in a soft, comfortable glove. Reinforced thumb crotch provides additional protection durability in an inherently weak area. Tested for heat protection at EN407 contact heat level 1, this glove is ideal to use as a liner under other styles of gloves and gauntlets where heat and cut protection is required.

## HP1010 WELDERS GAUNTLET

### PRODUCT FEATURES:

A high quality, traditional red welders gauntlet with a minimum leather thickness of 1.0mm. Includes a cotton lining to the cuff with a soft, comfortable fleecy lining to the glove area. Partial welting to the seams and finger tips and self hemmed. Available in standard, extended cuff (WGR-16) and double palm (WGR-DP) variations. Per pair.

## HP1011 SUPERIOR RIGGER GLOVE

### PRODUCT FEATURES:

A high quality superior rigger glove made from 1 to 1.2 mm thick leather with a heavy red drill backing. Rubberised cuff, leather wing thumb and first finger with an elasticated back and leather knuckle protection. Comfort is further improved by a soft fleece lining on the front of the palm and fingers.

## HP1012 THERMAL LINED GLOVES

### PRODUCT FEATURES:

Thick thermal brushed polyester liner with excellent insulating capacities to keep hands warm in cold environments. High visibility yellow or orange liners for easy recognition and use in dim lighting applications where being seen is imperative. Contact heat level 2 tested for use up to 250°C. Premium crinkle latex coating with additional dual coating on the fingertips for added durability.

# HAND PROTECTION

## HP1013 KEVLAR GLOVES

### PRODUCT FEATURES:

A heavyweight, ambidex trous knitted 14" gauntlet made from high quality 7 gauge genuine Dupont™ Kevlar®. This gauntlet incorporates a separate heavy knitted cotton lining attached to the inside for added insulation and an extended cuff for additional protection to the wrist. This gauntlet offers outstanding cut level 5 protection and heat protection up to 350°C.

## HP1014 THERMAL INDUSTRIAL

### PRODUCT FEATURES:

An industry leading glove that has been especially designed to perform in extremely cold conditions. This premium glove is constructed with a tough, tear resistant nylon outer and coated in a flexible patented HPT® coating for exceptional grip in most conditions and designed to stay flexible at extremely low temperatures. Encapsulated air molecules repel liquids for a firm dry, wet or oily grip plus provides a cushioning effect. A brushed acrylic terry loop inner allows for outstanding thermal insulation and unrivalled comfort.

## HP1015 KEVLAR YARN SLEEVES

### PRODUCT FEATURES:

DuPont™ Kevlar® yarn combines high strength and cut resistance into a soft flexible yarn. These sleeves have a double layer construction of DuPont™ Kevlar® yarn for enhanced protection. The thumb slot cut out helps to locate the sleeve securely and also increases protection to the palm area. DuPont™ Kevlar® provides heat protection to EN407 so is ideal for protection against warm objects.

## HP1016 NEOPRENE GLOVES

### PRODUCT FEATURES:

Gloves made from Neoprene rubber for increased resistance to fats, oils, strong cleaning agents and mild solvents. The special coating of synthetic rubber provides increased abrasion resistance and longer life. Cotton flock lining to increase user comfort. 'Lozenge' pattern on palm and fingertips improves grip performance and minimises finger fatigue. Suitable for use with food

# HAND PROTECTION

## HP1017 HD NATURAL RUBBER

### PRODUCT FEATURES:

Heavy Duty Natural Rubber Gauntlet designed for more demanding applications where both chemical and mechanical protection is required. Chemically toughened to improve protection against many acids, alkalis, detergents and ketones. Thicker gauge and longer length for maximum chemical and splash protection. Slip resistant pattern to palm and fingertips to improve grip. Unlined with satin finish to enhance user comfort. Suitable for use with food.

## HP1018 PVC DIP GAUNTLET

### PRODUCT FEATURES:

- Our PVC Dip Gauntlets are perfect for a range of industrial processing and public utilities tasks. Available in a variety of lengths, you're sure to find a glove to suit the task at hand.
- Cat III Complex Design. Conforms to EN 388 levels 4-1-3-1. Conforms to EN 374 parts 1-3 (low chemical use), Medium weight PVC dip, Cotton interlock liner, Abrasion resistant.

## HP1019 GREEN NITRILE GLOVES

### PRODUCT FEATURES:

Premium lightweight green nitrile gauntlet designed for applications where chemical and mechanical protection is required. Excellent resistance against oils, fats, bleaching agents and solvents. 'Lozenge' pattern on palm and fingertips improves grip and performance. Hardwearing glove with superior abrasion resistance. Specially formulated for improved dexterity and minimal finger fatigue. Flock lined for moisture absorption. Suitable for food use. Antistatic properties meet the requirements of EN1149-1:1996 for surface resistivity.

## HP1020 HOUSEHOLD LATEX

### PRODUCT FEATURES:

- Household Rubber Gauntlets for a variety of applications.
- Flock lined for wearer comfort.
- Embossed pattern to palm to improve grip.
- Suitable for Food Use.

# HAND PROTECTION

## HP1021 COTTON GLOVES

### PRODUCT FEATURES:

Economical, high quality stockinette glove with knit wrist. Ideal for product protection or light handling applications. Can also be used as a liner under other glove or gauntlet styles.

## HP1022 STOCKINETTE GLOVES

### PRODUCT FEATURES:

High quality stockinette glove with extended cuff. Ideal for product protection or light handling applications. Useful protection to the wrist or for use as a liner in gauntlet styles.

## HP1023 ECONOMICAL STOCKINETTE

### PRODUCT FEATURES:

Economical stockinette glove with knit wrist. Ideal for product protection or light handling applications. Can also be used as a liner under other glove or gauntlet styles.

## HP 1024 VINYL DISPOSABLE GLOVES

### PRODUCT FEATURES:

A single use clear vinyl disposable for a wide range of applications where dexterity is required. Ambidextrous design with a rolled cuff for extra strength. Lightly powdered to aid donning and absorb moisture. Available in powder free. Contains no latex. Suitable for use with food.

# HAND PROTECTION

## HP1025 THK LATEX GLOVES

### PRODUCT FEATURES:

Latex gloves with thicker walls and lengthened cuffs. Glove type: diagnostic, protective, powder-free, non-sterile, with thicker walls. Raw material: natural rubber latex; Powdering agent: none - powder-free; Quantity in an individual packaging: 50 pieces; Surface: textured; Cuff finishing: evenly rolled edge; Shape: universal, fitting the right and left hand. Sizes: M (7-8), L (8-9), XL.

## HP1026 LATEX DISPOSABLE GLOVES

### PRODUCT FEATURES:

A single use disposable glove made from natural latex which offers excellent dexterity for precise applications and product protection. Ambidextrous design with a rolled cuff for extra strength and AQL 1.5. Non-Sterile and lightly powdered with USP grade cornstarch to aid donning and absorb moisture. Suitable for food use.

## HP1027 BLACK LATEX GLOVES

### PRODUCT FEATURES:

100 Nr latex for maximum stretch, comfort and fit. Intense matt black colour. Polymer coated and fully textured for maximum grip. Medical grade & powder free. Ideal for tattooists.

## HP1028 POWDER FREE NITRILE

- Cotton Drill PVC Polka Dot Grip Work Gloves
- Mediumweight 8oz

## HP1032 POLKA DOT ENDURANCE

### PRODUCT FEATURES:

- Cotton Drill PVC Polka Dot Grip Work Gloves
- Mediumweight 8oz
- Designed for endurance

# DISPOSABLE PROTECTION

## DP1101 DISPOSABLE POLY APRONS

### PRODUCT FEATURES:

Disposable polythene aprons. Available in blue or white. Flat packs of 100 or rolls of 200 sold per case. We can supply aprons for most minimal risk applications. Materials offered include cotton, canvas, PVC, leather, rubber, and polythene. A wide range of sizes are available either ex-stock or to order.

## DP1102 DISPOSABLE POLY CAPS

### PRODUCT FEATURES:

Elasticised polypropylene mob cap, single size, available in White or Blue from stock and red.

## DP1103 DISPOSABLE BEARD MASK

### PRODUCT FEATURES:

When hygiene is of great importance, our Beard Masks are essential for those with facial hair. Why not team it up with a bouffant cap for ultimate coverage – an ideal combination for food industry workers.

## DP1104 DISPOSABLE BALACLAVA

### PRODUCT FEATURES:

When a disposable cap won't suffice, choose our Economy Balaclava Hood instead. Ideal for food handling, these colour-coded balaclava hoods are perfect for a whole host of hygienic work environments.

# DISPOSABLE PROTECTION

## DP1105 DISPOSABLE SHOE COVER

### PRODUCT FEATURES:

A lightweight elasticised polyethylene shoe cover, available in blue and white.

## DP1106 SMS BOOT COVERS

### PRODUCT FEATURES:

Our SMS Boot Covers offer a longer length teamed with mid-calf ties for great fit - ideal for clean areas, factories and healthcare usage. Properties include non-woven Polypropylene SMS fabric, SMS ties for greater fit and mid calf length.

## DP1107 OVERBOOT PROTECTION

### PRODUCT FEATURES:

This over boot is soft and micro porous, strong and resistant to chemical splash and dust and can be used for a wide range of applications. They are anti-static and lint free and are suitable for clean room applications. Reduces microbiological growth and contamination in aseptic conditions.

Used to protect the wearer from their environment or the environment from the wearer. The range has been designed to allow for maximum comfort and wear ability. Boots are suitable for male or female use. Toes are pushed to the front of the boot and the excess length is folded behind the heel and then the ties secure the boot around the ankle.

# RESPIRATORY PROTECTION

## RP1201 FACIAL PROTECTION

### PRODUCT FEATURES:

3-ply masks For simple, easy to wear facial protection, choose our Non-Woven Face Masks. With the option of loops or a tie back fastening plus three colours to choose from, you're sure to find a mask that will suit the task at hand. 1 ply also available from stock.

## RP1202 DUSK MASK

### PRODUCT FEATURES:

The UC-DM is a nuisance mask used for product protection and comfort. Available bulk packed in boxes of 50. This mask is not classed as PPE and should not be used against dusts which are in any way harmful.

## RP1203 VALVED FOLD FLAT MASKS

### PRODUCT FEATURES:

FFP2 Valved Fold Flat wit valve. Fully UK certified to EN149:2001 +A1:2009. Adjustable nose bridge with foam seal. Colour co-ordinated straps for easy workplace identification.

## RP1204 ADJ NOSE VALVED F/FLAT

### PRODUCT FEATURES:

Fully UK certified to EN149:2001 +A1:2009. Adjustable nose bridge with foam seal. Colour co-ordinated straps for easy workplace identification. Space saving fold flat design and individual packaging. Available in a valved version ONLY to reduce heat build up within the mask for greater worker acceptance. A premium mask for more demanding applications.

# RESPIRATORY PROTECTION

## RP1205 MOLDEX MASK

### PRODUCT FEATURES:

Durable and comfortable, this range of masks is available in a range of protection levels. Loop strap and designed to seal effectively without a nose clip. DuraMesh® structure holds the mask shape and is stronger and more durable than traditional designs.

## RP1206 MOLDEX VENTED MASK

### PRODUCT FEATURES:

Durable and comfortable, this range of masks is available in a range of protection levels. Loop strap and designed to seal effectively without a nose clip. DuraMesh® structure holds the mask shape and is stronger and more durable than traditional designs. The optional Ventex® valve has an extra large vent to reduce heat and moisture. Available in a range of protection levels with or without valve.

## RP1207 PARTICULATE RESPIRATOR

### PRODUCT FEATURES:

Lightweight, effective, comfortable and hygienic respiratory protection against dust, mist and nuisance level acid gas. Robust Shell and Cup. It conforms well to most face shapes and sizes, maintains its shape well during use and its collapse-resistant Carbon Layer provides protection against nuisance level organic vapours. Easy to recognise performance level by colour coded straps.

## RP1208 PARTICULATE RESP + VALVE

### PRODUCT FEATURES:

Same as per the 9913 model but includes the 3M™ Cool Flow™ Valve which reduces heat build-up to offer workers comfortable protection even in hot and humid conditions. It offers reliable, effective protection against dust, mist and nuisance level organic vapour.

# RESPIRATORY PROTECTION

## RP1209 HALF MASK

### PRODUCT FEATURES:

The fitting solution to your respiratory needs, Scott Safety's Profile<sup>2</sup> is an advanced twin filter half mask that combines comfort, protection and low through life costs with exceptionally low breathing resistance. Perfectly balanced, user friendly and modern in design, Profile<sup>2</sup> accepts the comprehensive range of highly efficient Scott Safety Pro<sup>2</sup> gas, particulate and combined filters to provide respiratory protection in a wide variety of applications.

- Large diameter valves create low breathing resistance and reduce wearer fatigue
- Odourless, lightweight TPE Facepiece is incredibly soft and comfortable to wear for long periods.
- Comfortable head harness and neck buckle provide even weight distribution and full support for the mask
- Easy to fit and adjust, the mask's intuitive donning process promotes high wearer acceptance
- Latex and silicone-free to ensure no allergic skin reaction or irritation
- Choice of three sizes with wide faceseal for optimum and efficient fit
- Low profile and swept back filters provide balance, an unobstructed field of vision and allow compatibility with other PPE
- Easy-fit bayonet filter mechanism enables fast, secure first time connection
- Spark, splash and contaminant guards for filters and exhale valve.
- Large diameter valves create low breathing resistance and reduce wearer fatigue

## RP1210 COMBINED FILTERS

### PRODUCT FEATURES:

Scott Safety's Pro<sup>2</sup> Combined Filters have a safe bayonet fit locking system and unique covers to provide protection from splashes, sparks and contaminants.

## OTHER RESPIRATORY PRODUCTS

9010 P1 R  
9020 P2R  
9022 P2 R+OZONE  
9030 P3 R  
9032 P3 R+OZONE

### PRODUCT FEATURES:

- Made from soft comfortable TPE material to ensure optimum fit with a panoramic PC lens.
- Hydrophobic coating for ease of cleaning and easily removed with one finger strap release points.
- Available with a wide range of cartridges and particulate filters which fit both the 7000 and 9000 series without the need for any adapters.
- Filters simply twist and lock in place and can be used in any combination enabling the same mask to protect against gases, particulates or both together.

# HEARING PROTECTION

## HP1301 STANDARD EAR MUFF

### PRODUCT FEATURES:

Economical protection with contoured headband and comfortable foam filled cups. Bulk packed in individual polybags.

## HP1302 DELUXE EAR MUFF

### PRODUCT FEATURES:

Extra comfortable protection with adjustable padded contoured headband. Comfortable foam filled cups. Bulk packed in individual polybags. Available with retail header card soon.

## HP1303 28dB NOISE REDUCTION

### PRODUCT FEATURES:

Practical earmuffs. 28 dB noise protection, soft coat material with exclusive metallic colour, moulded cup grips make fitting and alignment quick and easy. Wide range of cup adjustment gives excellent pressure distribution for all sizes. It is suggested that cushions & foam inserts are replaced at 6 monthly intervals.

## HP1304 STANDARD EARBAND

### PRODUCT FEATURES:

Convenient banded design can be worn over the head or behind the neck when worn with helmets or visors. Locates conveniently around the neck when not in use. Sold individually packed in convenient dispenser boxes which can also be used for point of sale display. Spare foam pods EP-06P are available

# HEARING PROTECTION

## HP1305 SOFT FOAM PLUGS

### PRODUCT FEATURES:

Made from soft PU foam, the plugs expand gradually and so conform to exactly the size and shape of the ear canal. Very high SNR rating for excellent protection in very noisy environments. Available in corded and uncorded versions. Supplied in a convenient cardboard dispenser box.

## HP1306 REUSABLE EAR PLUGS

### PRODUCT FEATURES:

Cost effective reusable earplugs made from soft thermoplastic rubber. Easily cleaned for re-use and individually packed for hygiene. Suitable for less demanding applications where higher levels of protection are not necessary. Easily fitted without having to touch the area being inserted into the ear for better hygiene. Supplied in cardboard dispenser boxes.

## HP1307 EAR PLUG DISPENSER

### PRODUCT FEATURES:

Bulk polybag refill of 500 pairs of UC-EP03 for UC-D500 dispenser. Made from soft PU foam, the plugs expand gradually and so conform to exactly the size and shape of the ear canal. Very high SNR 37 rating for excellent protection in very noisy environments.

## HP1308 CORDED EARPLUGS

### PRODUCT FEATURES:

Corded Earplugs (box x 200) provide an exceptional and individual fit. Simple fit design for quick and effective use. Individually packed in pairs for hygiene and easy distribution. High attenuation designed for enhanced noise protection in louder environments. Corded variation allows for the ear plugs to be conveniently hung around the neck when not required and easily re-inserted when necessary.

# HEARING PROTECTION

## HP1309 DISPOSABLE PROTECTORS

## HP1312 DISPENSER BRACKET

### PRODUCT FEATURES:

Dispenser Bracket for 7850 and 7650 dispenser Refills.

# BODY PROTECTION

## BP1401 PLUS COVERALL

### PRODUCT FEATURES:

Laminated liquid resistant fabric. Offers protection within specific limits against harmful chemicals and agents (see User Information Sheet for full details).

Anti-static treatment to EN 1149-5 Offers protective barrier to radioactive particles (to EN 1073-2, class 1) and bacteriophage (to EN 14126). Zip front with adhesive backed cover flap for maximum security.

Elasticated hood, cuffs and ankle closures to limit dust ingress. Conforms to CE Category III, types 5 & 6. Data sheets available on request

## BP1402 TYVEK® CLASSIC EXPERT COVERALL

### PRODUCT FEATURES:

Superior Type 5 and Type 6 protection – DuPont™ Tyvek® Classic Xpert. Drawing on decades of experience in the field, the Tyvek® Classic Xpert garment offers enhanced protection against a range of threats, from water-based chemical liquid splashes, asbestos, pharmaceutical and radioactive particulates to biological hazards. It offers the wearer superior liquid protection due to its new patent pending seam technology. It passes the new stringent Type 6 test method and demonstrates greater protection when tested according to the whole suit Type 4 spray test (EN ISO 17491-4 method B).

Moreover, Tyvek® Classic Xpert sets a new standard in particulate protection, with only 0.8% whole suit inward leakage compared to 5% with Tyvek® Classic and to 8% with a typical Microporous Film (MPF). The excellent design and overall ergonomic shape of the garment ensures a perfect fit and protection whilst moving, across a whole host of applications.

# BODY PROTECTION

## BP1403 TYCHEM® C COVERALL

### PRODUCT FEATURES:

Tychem® C coveralls (model CHA5) help offer Type 3-B, 4, 5 and 6 barrier protection against a wide range of inorganic chemical and biological hazards, yet are lightweight and comfortable too.

## BP1404 TYCHEM® F COVERALL

### PRODUCT FEATURES:

Tychem® F coveralls, are made of a proprietary barrier film laminated to a Tyvek® substrate.

Strong, durable, and lightweight, it is a preferred choice for law enforcement, emergency medical services technicians, and military personnel. Tychem® F fabrics are tested by a third party laboratory to assess its chemical permeation resistance.

DuPont has data for over 190 chemicals for Tychem® F in SafeSPEC™ 2.0 so that the user can select an appropriate garment. Provides protection against over 180 chemical challenges for at least 30 minutes.

Used by military personnel and first responders for chemical warfare situations Available in low-visibility gray fabric for discretionary purposes

# BODY PROTECTION

## BP1405 STD HI-VIS WAISTCOAT

- Lightweight suede sandals.
- Upper: Suede leather.
- Lining: Breathable, abrasion resistant.
- Toe cap: Steel.
- Stainless steel.
- Removable, cushioned, antistatic insole.
- Outsole: PU 2D, antislip sole SRC.
- EN 20345:2011 S1P SRC.

# SAFETY SHOES

## SS2020 SLIP ON SAFETY SHOES

### PRODUCT FEATURES:

- Upper Microfibre
- Sole Dual Density 5500 PU sole
  - Midsole without midsole
    - Colour: Black
    - Steel Toe Cap
    - Antistatic Insole
    - Sizes EU 35-48
- Toe protection with resistance of 200J
  - Very light footwear
- Footwear with oil/acid resistant outsole
  - Microfibre upper
  - Water-resistant upper
    - Antistatic footwear
- Machine Washable 40°C
  - Anti-Bacterial lining

## SS2021 WELLINGTON BOOTS

### PRODUCT FEATURES:

- Knee or Half Knee
- Made for professional use
  - Antistatic outsole
- Tip resistant to sharp objects
  - Suitable for gardening
    - Waterproof
- Sole resistant to oils and fuels
  - Reinforced sole metal
    - Made of PVC

# SAFETY SHOES

## SS2022 WHITE LIGHT SLIP-ONS

### PRODUCT FEATURES:

- Upper Microfibre
- Sole Dual Density 5500 PU sole
- Midsole without midsole
- Colour: White
- Steel Toe Cap
- Antistatic Insole
- Sizes EU 35-48
- Toe protection with resistance of 200J
- Very light footwear
- Footwear with oil/acid resistant outsole
- Microfibre upper
- Water-resistant upper
- Antistatic footwear
- Machine Washable 40°C
- Anti-Bacterial lining

## SS2023 WHITE STEEL-TOE CLOGS

### PRODUCT FEATURES:

- Upper Microfibre
- Sole Dual Density 5500 PU sole
- Midsole without midsole
- Colour: White/Black
- Steel Toe Cap
- Antistatic Insole
- Sizes EU 35-48
- Toe protection with resistance of 200J
- Very light footwear
- Footwear with oil/acid resistant outsole
- Microfibre upper
- Water-resistant upper
- Antistatic footwear
- Machine Washable 40°C
- Anti-Bacterial lining

# SAFETY SHOES

## SS2024 LIGHTWEIGHT LADIES MID-BOOT

### PRODUCT FEATURES:

Official European Safety Rating CE  
UNI EN ISO 20345:2012 S3 SRC ESD  
CLASS 3

- Upper midcut boot style, WRU anti-scratch back leather thickness 1,8-2,0 mm with external Technical fabric
  - Perspiring and abrasion resistant fabric lining
- Soft, lined and padded tongue for additional comfort
  - Constructed from modern lightweight materials this style is completely Metal Free.
- Underfoot protection is provided by a highly flexible midsole which is constructed from a antiperforation composite fabric according to EN 12568

Front toe protection is delivered by a 200 Joule polymeric composite non-thermic safety toe cap according to EN 12568

The Ladies Giasco Bloom Sole Unit has been constructed from bidensity polyurethane and is antistatic, resistant to hydrolysis ISO 5423:92, to hydrocarbons and to abrasion, delivers anti-shock and anti-slipping to SRC standards.

INSOLE 3000, double-component removable: absorbing, antistatic, perspiring, and anti-slipping with anatomic and anti-shock heel area.

ESD class 3 passes the test EN ISO 61340-4-3, according to the norm EN ISO 61340-5-1 standards for electrical resistance.

# SAFETY SHOES

## SS2025 500V ELECTRICAL SHOES

### PRODUCT FEATURES:

Official European Safety Rating CE UNI  
EN ISO 20345:2012 SB FO E P WRU HRO  
SRC

- Upper low shoe style, WRU suede back leather, heel in anti-scratch leather thickness 1,8-2,0 mm
- Highly perspiring and abrasion resistant fabric lining
- Soft, lined and padded tongue for additional comfort
- Constructed from modern lightweight materials this style is completely Metal Free
- Front toe protection is delivered by a 200 Joule polymeric composite non-thermic safety toe cap according to EN 12568
- Underfoot protection is provided by a highly flexible midsole which is constructed from a antiperforation composite Insulating fabric according to EN 12568.

Technical Dielectric Sole is constructed from bidensity polyurethane and dielectric rubber, resistant to hydrolysis ISO 5423:92, to hydrocarbons and to abrasion, delivers anti-shock and anti-slipping to SRC Standards. The bottom of the shoe, within some limits (no humidity, it does not concern the upper), offers electrical resistance against tension up to 500V - M ? > 1.000 (met. similar EN 344/1 p. 5.7)

Electrical resistance: CSA Z Canadian standard 195 - increase 1 kV/sec - voltage 18.000V /60 hz - duration 1 minute.  
Electrical resistance: ASTM 2413-11 standard.

Sizes: 39-47

## SS2026 ELECTRICAL SHOES

### PRODUCT FEATURES:

Safety shoes SB FO E P HRO - 39-47

- Low shoe, suede back leather thickness 1,8-2,0 mm, with holed three-dimensional external fabric
- Highly perspiring and abrasion resistant fabric lining
  - Soft, lined and padded tongue
- COMPLETELY METAL FREE SHOE
- TOECAP 200J polymeric composite non-thermic according to EN 12568 • MIDSOLE flexible antiperforation composite fabric according to EN 12568 • SOLE TECNICAL DIELECTRIC bidensity polyurethane and DIELECTRIC RUBBER.

Sole resistant to hydrolysis ISO 5423:92, to hydrocarbons and to abrasion, anti-shock and anti-slipping SRC

- The bottom of the shoe, within some limits (no humidity, it does not concern the upper)
  - Offers electrical resistance against tension up to 500V -  $M \Omega > 1.000$  (met. similar EN 344/1 p. 5.7)
  - Dielectric resistance: CSA Canadian standard Z195 - increase 1 kV/sec - voltage 18.000V/60 hz - duration 1 minute
- INSOLE removable, anatomic, absorbing, antistatic and perspiring
- FO sole resistance to hydrocarbons
- E energy absorption of seat region
  - P antiperforation midsole
- HRO resistant to hot contact sole
  - Size: 39-47
  - Weight (sz. 42): 570g

# SAFETY SHOES

## SS2027 ELECTRICAL RESISTANCE BOOTS

### PRODUCT FEATURES:

High shoe WRU back leather and heel in anti-scratch leather thickness 1,8-2,0 mm

- With refracting fabric insert
- Perspiring and abrasion resistant fabric lining
- Soft, lined and padded tongue
- COMPLETELY METAL FREE SHOE
- TOECAP 200J polymeric composite non-thermic according to EN 12568
- MIDSOLE flexible antiperforation composite
- INSULATING fabric according to EN 12568
- SOLE HARD ROCK INSULATING bidensity polyurethane and INSULATING RUBBER resistant to hydrolysis ISO 5423:92 to hydrocarbons and to abrasion
- Anti-shock and anti-slipping SRC
- The bottom of the shoe, within some limits (no humidity, it doesn't concern the upper)
- offers electrical resistance against tension up to 1.000V -  $M \Omega > 1.000$

Electrical resistance: CSA Z195-14 Canadian standard - increase 1 kV/sec - voltage 20.000V /60 hz - duration 1 minute • Electrical resistance: ASTM F2413-11 standard - increase 1 kV/sec - voltage 20.000V/60 Hz - duration 1 minute. Electric flow requirement less than 1,0 mA

INSOLE 4000, removable, anatomic, absorbing, antistatic and perspiring

- FO sole resistance to hydrocarbons
- E energy absorption on seat region
- P antiperforation midsole
- CI insulated surface against cold -17°C
- HI insulated surface against heat
- HRO resistance to hot contact of the outsole
- Size 37-47

# SAFETY CRIMPING & CUTTING TOOLS

## THE TOOL RANGE FOR MAXIMUM SAFETY

VDE TESTED AND CERTIFIED UP TO 1000V IN ACCORDANCE TO THE ELECTRICAL REQUIREMENTS OF IEC 60900

# Klauke®

Additional touching of live parts is prevented by standard-conforming slip-off protection

### GLOBALY UNIQUE

Our Orange Line series of battery powered hydraulic cutting and crimping tools are the world's first tools of their kind offering protection from electric shocks up to 1000 V. The insulation barrier, which was developed in-house, prevents voltage discharging between tool head and tool body. Every single tool is tested for compliance with the high requirements of IEC 60900 in our production process. This guarantees voltage protection up to 1000V.

### MUCH SAFER OPERATIONS

Working on live parts in low-voltage areas up to 1000V is often a part of every day work in certain sectors. Until now, such tasks have required the use of insulated hand tools. Our new Orange Line series offers now for the first time battery-powered cutting and crimping tools which significantly increase user safety. In addition, our insulated tools are much safer to use in all applications involving potentially live parts. Working on supposedly de-energized parts always carried a residual risk in the past, but electrical accidents in the low voltage area up to 1000V can now be actively prevented.

### SAFE AND CONVENIENT

Electrical system cannot be de-energized or disconnected in many cases, so working on live cables cannot be avoided. Our Oranges Line of battery powered crimping and cutting tools increase operating comfort and safety significantly in these cases. They are suitable for all applications in the low-voltage area up to 1000 V: from the installation of cable joints and working on overhead transmission lines to mounting and repairing street lighting or meter systems.

### EKM 60 ID ISM

#### PRODUCT FEATURES:

- VDE battery powered hydraulic crimping tool 10-240mm<sup>2</sup>.
- Extra large crimping area due to innovative 2-stage telescopic cylinder.
- Indent crimping - no changing of dies required.

### EKM 60/22 ISM

#### PRODUCT FEATURES:

- VDE battery powered hydraulic crimping tool 6-300 mm<sup>2</sup>.
- Large crimping range up to 300 mm<sup>2</sup>
- Interchangeable dies.

### ESM 50 ISM

#### PRODUCT FEATURES:

- VDE battery powered hydraulic cutting tool 50mm dia. for Cu and Al cable
- High cutting force for cutting Cu and Al cables (fine-wired also)
- Saves time with multiple cuts thanks to innovative opening mechanism.

# SAFETY CRIMPING & CUTTING TOOLS

## ESM 35 ISM

### PRODUCT FEATURES:

- VDE battery powered hydraulic cutting tool 35mm dia. for Cu and Al cable
- High cutting force for cutting Cu and Al cables (fine-wired also)

## ES 32 ISM

### PRODUCT FEATURES:

- VDE battery powered hydraulic cutting tool 32mm dia.
- Slim cutting head - ideal when space is critical

## ESM 25 ISM

### PRODUCT FEATURES:

- VDE battery powered hydraulic cutting tool 25mm
- For cutting Al/St cables (ACSR), round materials & armoured cables, solid struct. steel & stay wires
- Easy to replace cutting blade for interruption free working

## ESM 20 ISM

### PRODUCT FEATURES:

- VDE battery powered hydraulic cutting tool 20mm dia.
- For cutting Al/St conductors (ACSR) to DIN EN 50182, solid Al/Cu cables to DIN EN60228, Class 1 and laminated copper bus bars
- Extremely robust design and lightweight

## ESSG

### PRODUCT FEATURES:

- Battery powered hydraulic safety cutter to max. 105mm dia.
- Safety cutter for cutting live Cu/Al cables which may carry voltage in case of a failure
- Single-phase cables can be safely cut under voltage up to 110 kV
- Multi-phase cables can be safely cut under voltage up to 60 kV
- Safe and fast operations by using a 10 m long safety hydraulic hose

## ASSG

### PRODUCT FEATURES:

- Battery powered hydraulic safety cutter to max. 120 mm dia.
- DGUV-approved safety cutter for cutting live Cu/Al cables in case of failure
- Single-phase cables can be safely cut under voltage up to 110 kV
- Multi-phase cables can be safely cut under voltage up to 60 kV
- Very large opening width to 120 mm
- Safe and fast operations by using remote control and 10m long safety hydraulic hose

# EUROPRO

## SAFETY

**EUROPRO SAFETY** is committed to provide the best quality garments and safety items which meet various international standards for varied end applications.

We ensure that our suppliers adhere to high quality consistency and utilise facilities at various international and domestic accredited test laboratories for testing and certifications together with highly experienced quality control teams for evaluation and testing of all the products we supply at the various stages of their production.

**For us, at EUROPRO SAFETY, quality always comes first.**
